BOOK SYNOPSIS

Named a Best Gift Book for Gardeners by The New York Times Book Review, Los Angeles Times, San Francisco Chronicle, Seattle Times, Domino magazine, and Goop. Our homes' outdoor spaces can—and should—be as welcoming and carefully considered as our living rooms; when treated as extensions of our homes, these spaces enrich our lives immeasurably. That was the guiding principle when, under the direction of editor in chief Michelle Slatalla (whose New York Times style columns were weekly must-reads for a decade), the team behind Remodelista.com launched sister site Gardenista.com. Like Remodelista, Gardenista caters to an older, more established audience (75 percent of readers are over the age of 35) and is known for its sophisticated, well-edited aesthetic. The book contains lushly photographed tours of 12 enviable gardens; planting guides for a variety of climates and color palettes; in-depth case studies on more than a dozen outdoor structures (from yoga studios to chicken coops); do-it-yourself projects; easy-to-implement design ideas; "The Gardenista 100," a guide to timeless everyday objects for the outdoors; plus advice from landscape professionals. Equal parts inspiration and expert intel, Gardenista is both a perfect starting point and an all-in-one manual when questions arise.
